

## RF COLOR TAG 50 mm

### RF COLOR TAG

**Detection:**

Best detection through conical coil

**Safety:**

Increased safety through patented  
360 ° ink tube

The 50 mm colour tag is consisting of a R 50 tag and an ink pin shield.  
So you have the possibility to use the tag as standard safety tag or in connection with the ink pin shield as a color tag

**Colors:**

- Standard color white
- other colors on request

**Frequency:**

- Standard 8,2 MHZ
- other frequencies on request
